Sort out rubbish according to your needs.

We love that people sort out waste more and more, and we accommodate that into our selection. Sorting systems nowadays vary based on individual preferences. Some prefer more small containers, while others opt for larger ones. The choice is yours.

● RIEX GM22 Cutlery Trays in Anthracite

- Clever solution of cutlery tray
- We recommend adding an anti-slip mat to the free area next to the cutlery trays
- The dimensions are independent of the width of the drawer
- Precuted for length 474 mm – most used depth for 500 mm drawers
- Side versions are possible to fit to left or right side of drawer

① F007661 – can be placed on both the left and right side of the drawer

① F007661

① F007662 – can be placed in the center of the drawer

① F007662

① F007663 – can be placed on both the left and right side of the drawer

① F007663

① F007664 – can be placed on both the left and right side of the drawer

① F007664

Cutlery tray width [mm]	Position	Code	Depth
266	Side (left or right)	F007661	420 - 474
278	Central	F007662	
376	Side (left or right)	F007663	
240	Side (left or right)	F007664	

① We recommend combining with an anti-slip mat e.g. F003490

① Example of application – Possible to combine all cutlery trays to fit the ideal combination. For example F007663 + F007662 + F007664.
