Kronodesign[®]

Global Collection 3.0

Valued customer, we would like to introduce to you our complete range of edges for flat materials from the Kronodesign Global Collection 3.0. All edge decors are precisely designed to match perfectly not only in appearance, but also to the touch. All edges of this collection can be ordered in all common widths. For more details on the full range of widths, custom cutting, and other options, including the application of a functional layer or adhesive, please visit our online shop at: www.hranipex.com

Hranipex - perfect edges for 30 years.

ABS slit to size

Slitting the ABS edges in atypical dimensions.

Starting from 1 meter

We offer edges as well as jumbo rolls from 1 metre. You don't have to purchase full rolls when you don't need to. Saving money and reducing waste.

Applying adhesive

Do you need an edge with adhesive already applied? Not a problem. We apply glue to the edges of the Hranipex collection.

Lacquering

We can prepare any ABS edge in plain colour in the gloss level of your choice. We apply varnish from 10° to 90° gloss.

Application of the AdvantEdge® functional layer

We can apply a functional layer for Hot-Air edging to any ABS edge.

Expert advice available

With our experienced and knowledgeable team we can confidently offer you suitable adhesives, manual cleaners and machine cleaners to compliment your products.

We prepare tailor made adhesives and cleaners

You need chemistry that exactly meets your requirements? Thanks to our own R&D we are able to provide specific adhesives or cleaners to meet your needs without compromise.

Notes

A series of horizontal lines for writing notes, overlaid with a faint, wavy, light gray background pattern.

A series of 15 horizontal lines for writing, spanning the width of the page. The lines are evenly spaced and cover the majority of the page area below the header.
